

Joaquín Rodríguez

Hi, I'm Joaquín.

I am a passionate developer who thrives on learning and exploring new tools and technologies. I have completed my Software Engineering degree and am currently pursuing a specialization in Artificial Intelligence to deepen my expertise in this rapidly evolving field. My experience spans primarily web application development, complemented by hands-on projects in mobile and desktop applications. I enjoy tackling challenges and continuously expanding my skill set to deliver innovative solutions.

What I've been doing lately

Razortech | Full Stack developer | December 2023 - Today

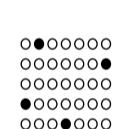

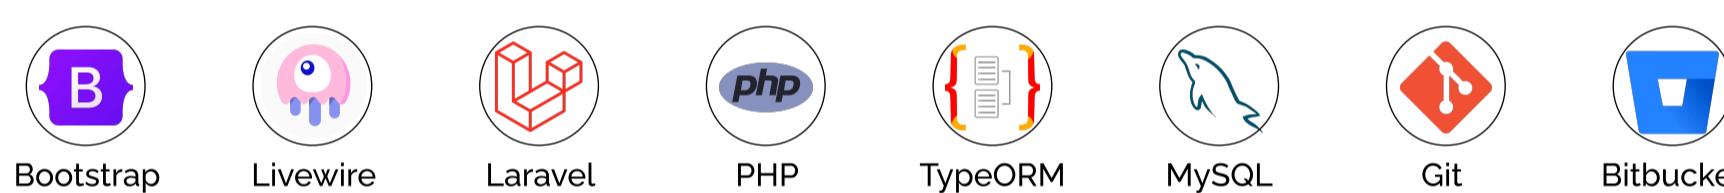

Ruuts | Full Stack developer | October 2022 - December 2023

Nuqlea | Frontend developer | December 2021 - July 2022

Nuqlea | Full Stack developer | October 2021 - December 2021

Aoniken | Full Stack developer | April 2021 - October 2021

Some other tools

Software engineer

Universidad Nacional del Sur (UNS)
March 2014 - February 2024

First Certificate Exam (FCE)

Cambridge English
April 2017 - December 2017

Introduction to Kotlin

Universidad Nacional del Sur (UNS)
January 2019 - February 2019

Specialty in AI

Universidad de Buenos Aires (UBA)
March 2025 - Today

Skills and knowledge acquired

Clean code	Algorithm complexity	Project management	Data bases
OOP	Design patterns	Agile methodologies	SOLID principles
Clean architecture	Mobile	AI	System requirements
			Testing & QA
